The Journal of Scholarly Papers of *Economics & Sociology* (E&S) only accepts original and authentic extended papers (approx. 8-12 A4 pages) on a regular basis, which have never been published before or are submitted/under consideration in another means of publication (e.g. another scientific journal, a scientific conference or a working paper, a report, etc.). E&S uses a double blind review process to ensure quality of the contributions. Please, sent your original and authentic papers by e-mail to:

yuriy_bilan@yahoo.co.uk

The preferred dates for submitting papers are: by **20th January** and by **20th May** each year. Papers should be of 8-12 pages in length (1.0-spaced) including the following obligatory parts:

- 1) Author's full name and academic title(s).
- 2) Author's full affiliation (including, name of the department, faculty and university, address and e-mail address; if necessary point out the corresponding author). If the

- author affiliates him/herself with a business organization or institution, please, supply adequate information on the organisation's full title and address and e-mail address.
- 3) *Title* of the paper (capitalize each meaningful word).
 - 4) An *abstract* (100-150 words) to disclose the main idea of the paper and your research results).
 - 5) *Keywords* (up to 5 meaningful words/phrases). Always refer to the country(ies) of your research.
 - 6) *JEL classification* (please, refer to http://www.aeaweb.org/jel/jel_class_system.php) for your keywords.
 - 7) *Introduction* is an obligatory part of the paper, where the author(s) indicates the *novelty* of the topic and its *urgent scientific solutions*. The *research goal* should be clearly stated alongside with *research tasks*, *research methodology*, *restrictions of the research* and *major sources of references*. Indicate the logic of presenting your research material, e.g., define which section contains what information or research findings (theoretical and empirical).
 - 8) *The body of the text* should be broken into meaningful sections with individual headings to disclose the essence of this section. Do not make the headings too long – a preferable heading should contain 1-7 words. The text may contain tables and figures, which should have separate numbering (one numbering system for tables; another – for figures). Never use or re-cite tables and figures of original authors, unless you receive a written permission from original authors/publishing house to include such tables and figures in your paper. A copy of such permission should be scanned and e-mailed to the Editorial Office of E&S in a PDF format.
 - 9) Every paper should contain *Conclusions*, where the author(s) should conclude on the research material, without new facts or data. Implications for a future research might also find their place in *Conclusions*. Author(s) might opt for a section of *Discussion* or *Recommendations*, this practice is also welcome in our Journal.
 - 10) At the end of the paper the author(s) should present full *References* in the alphabetical order. References should be clearly cited in the body of the text, e.g. (Smith, 2006) or (Smith, 2006, p.45), if an exact quotation is being used.
 - 11) In rare case we accept papers with extra explanations in *footnotes*. It is preferred that the author(s) keep(s) footnotes to a minimum.

Submissions are accepted all year round with the current waiting time of max. 6 months. When papers are reviewed and selected from scientific events (seminars and conferences), organized by the Centre of Sociological Research (Ukraine), the participation fee already includes the publication charge in E&S.

Finally, papers, as with all other aspects of the Journal, can be addressed to the Editorial Office. We look forward to hearing from you.
