

Journal of Innovative Technology

Aim and Scope

Journal of Innovative Technology is an interdisciplinary open access journal published by National Yunlin University of Science and Technology that covers research on topics related to innovative technology in multi-faceted aspects. It publishes original works about the innovative technology for improving the lives of people and engineering applications. It includes scientific and technical aspects of theoretical, experimental, and management approaches that deal with issues in innovative and multi-faceted technology. The scope deals from personal items (*e.g.*, computer) to industrial usage (*e.g.*, boilers) to full-scale industrial processes (*e.g.*, cleaner production).

Papers about means to improve technology/process efficiency/safety, conserve energy, and reduce raw material consumption in all aspects of processes by innovative methods are especially welcome. The aim of the journal is to advance technology in all levels from conceptual design to final application. Each submitted paper is evaluated for its uniqueness, originality, and practical implications.

Editor-in-Chief

Hwai-Chyuan Ong

National Yunlin University of Science and Technology, Taiwan, ROC

Associate Editor-in-Chief

Jung-Chuan Chou

National Yunlin University of Science and Technology,
Taiwan, ROC

Chi-Wen Lin

National Yunlin University of Science and Technology,
Taiwan, ROC

Wen-Chung Kuo

National Yunlin University of Science and Technology,
