

AQAFa Aims and Scope

Advances in Quantitative Analysis of Finance and Accounting (AQAFa) deals with research involving the interaction of finance with accounting, mathematics, statistics and technology. The papers published present useful theoretical and methodological results with the support of interesting empirical applications. Purely theoretical and methodological research with the potential for important applications is also published. Besides the traditional high-quality, theoretical and empirical research in finance, the journal also publishes papers dealing with interdisciplinary topics.

Subjects of interest may include, but are not limited to:

- Financial accounting which uses financial and economic theory and/or methodology;
- Managerial accounting and auditing which use financial and economic theory and/or methodology to deal with internal accounting data and decision making;
- Financial econometrics and statistics;
- Financial mathematics and technology.

The paper submission should be sent in a Microsoft Word file in English to the following emails: cflee@business.rutgers.edu and cflee@nycu.edu.tw for Prof. Cheng Few Lee.
